

Elena Rostova

Lead Data Scientist | elena.rostova@example.com | Boston, MA

WORK EXPERIENCE

Lead Data Scientist — BioTech AI Labs (2020 – Present)

- Developed deep learning models for genomic sequence analysis.
- Deployed PyTorch models on AWS SageMaker with 99.9% uptime.

Data Scientist — HealthData Systems (2017 – 2020)

- Built predictive models for patient readmission risks using XGBoost.

EDUCATION

Ph.D. in Computational Biology — MIT (2012 – 2017)

SKILLS & TOOLKIT

Languages: Python, R, SQL, C++

ML Frameworks: PyTorch, TensorFlow, Scikit-Learn

Cloud & Ops: AWS SageMaker, Docker, MLflow

CERTIFICATIONS

- AWS Certified Machine Learning - Specialty (2022)

PUBLICATIONS

- Rostova E., et al. 'Genomic Sequence Transformer Networks', Nature AI, 2021.
