

Dr. Arthur Pendelton

Vice President of Engineering | arthur.pendelton@executive.org | (555) 999-0001 | New York, NY

EXECUTIVE SUMMARY

Global Engineering Executive with 20+ years of leadership scaling engineering organizations from 20 to 500+ engineers across Americas, EMEA, and APAC.

CAREER EXPERIENCE (PAGE 1)

VP of Engineering — Global Tech Enterprises (2020 – Present)

- Oversaw \$80M annual engineering budget and managed 450+ engineering headcount.
- Spearheaded cloud transformation migrating legacy on-prem systems to AWS.

Senior Director of Software Architecture — Enterprise Cloud Corp (2015 – 2020)

- Directed software architecture strategy across 12 product lines.

CAREER EXPERIENCE CONTINUED (PAGE 2)

Director of Engineering — NextGen Systems (2010 – 2015)

- Led development of core microservices platform processing \$2B in transaction volume.

Principal Software Architect — Legacy Technologies (2005 – 2010)

- Designed high-performance C++ real-time order matching engine.

BOARD ADVISORY & FELLOWSHIPS

- Technical Advisory Board Member — Cloud Native Computing Foundation (CNCF)
- Executive Fellow — Institute of Software Engineering

EDUCATION & PATENTS (PAGE 3)

Ph.D. in Computer Engineering — Stanford University (2001 – 2005)

M.S. in Electrical Engineering — MIT (1999 – 2001)

ISSUED PATENTS

- US Patent 9,842,102: Distributed Consensus protocol for high-latency networks.
- US Patent 8,912,441: Dynamic load-balancing across edge nodes.
